Latest Issue

On the home page, it is very easy to find the latest issue of both magazines, as they are linked in the centre of the page. Click on the cover and it will take you straight to that issue.

Past Issues

Finding past issues of either magazine can be a little more confusing. You need to click on the latest issue of whichever magazine you want to read, and then on the right side of the page, there is a link to browse the past issues. Click on 'All Issues', and you can either browse the contents of the current magazine, or choose a past issue.

Settings

All Issues: provides a table of contents to find the articles in the current issue or find past issues.

Pages: flip through quickly to a certain page in the current issue.

Zoom: increase or decrease the size of the page.

Arrows: turn the pages back and forth.

Print: print the current page.

Settings: change the display margins.

Searching for a topic

In the top right corner of the page, there is a search bar. Clicking on this allows you to search for keywords either in this issue or in all issues. This brings up a list of results, and clicking on one takes you directly to the page that keyword is found.
